

To Whom It May Concern:

Please stop Sinclair Broadcasting from airing the anti-Kerry documentary days before the election. This is a clear example of the dangers of media consolidation and a blatant attempt to sway voters toward a political end using an unfair and biased advantage.

Sinclair broadcasts over the public airwaves and is using this to benefit their political and business concerns, NOT the public interest.

I heard Sinclair's VP speak last night on PBS and it is quite clear that they are using this public resource to their own advantage, at the expense of the public good. They are not an unbiased source of news - they are simply a political contributor seeking to better their own bottom line. Not only is this reckless, but it is illegal as it contradicts our constitution and the rules set by the FCC.

The current administration has weakened the FCC's control of the airwaves and has allowed consolidation of media ownership to increase. This is unhealthy and unamerican.

Please step in and stop this trevesty of justice, before it further wekens the FCC and our country's political process.

Thank You,

Jeff Daniel
